COVID-19 VACCINE BOOSTER STUDY

Emory Vaccine Research Clinic is conducting a research trial to study the safety and effectiveness of a Moderna mRNA study booster vaccine.

WE NEED PEOPLE WHO

- Were previously vaccinated with Moderna, Pfizer, or J&J’s authorized COVID-19 vaccines 12 – 20 weeks ago AND
- Have not received a COVID-19 vaccine yet.

Are you over 18?

Have never had COVID-19?

Will you be able to attend 7-10 clinic visits over the next year?

Want to contribute to essential scientific breakthroughs?

And be compensated for your time?
